

## El Said Mohamed Hassan

### • Profile

I am a fresh graduate who studied at the Faculty of Computer and Information Science. As a junior software engineer, I am highly motivated to succeed in this career. I have experience in all stages of creating robust software while adhering to **OOP** and **SOLID principles**. In addition, I am familiar with the **MVC** design pattern and **Clean Architecture** concepts. I also have a good knowledge of presenting and implementing the most common **data structures**.
